

2024 Annual Report on Florida-Origin Exports & Florida-Destination Imports

Top 50 Trade Rankings & World Region Analysis

Prepared February 2025

SELECTFLORIDA

www.SelectFlorida.org

Table of Contents

Introduction

1. Executive Summary

Florida-Origin Exports

2. U.S. Exports by State of Origin
3. Top 50 Florida-Origin Exports by Country
4. Top 50 Florida-Origin Exports by Commodity, 2-Digit HS Code
5. Top 50 Florida-Origin Exports by Commodity, 4-Digit HS Code

Florida-Origin Exports by Major World Region

6. Market Share by Major World Region & Share of U.S. Exports
7. Percent Change by Major World Region

Florida-Destination Imports

8. U.S. Imports by State of Destination
9. Top 50 Florida-Destination Imports by Country
10. Top 50 Florida-Destination Imports by Commodity, 2-Digit HS Code
11. Top 50 Florida-Destination Imports by Commodity, 4-Digit HS Code

Florida-Destination Imports by Major World Region

12. Market Share by Major World Region & Share of U.S. Exports
13. Percent Change by Major World Region

Executive Summary

The State Origin of Movement data series (**Florida-Origin Exports**), published by the [U.S. Census Bureau](#), measures the value of exported goods grown, mined, manufactured, assembled, or otherwise having value added in Florida (i.e. goods “Made in Florida”), regardless of where the goods exited the United States. These data provide an indicator for Florida producers and manufacturers about the state’s production capacity of certain goods.

The State of Destination data series (**Florida-Destination Imports**), also published by the [U.S. Census Bureau](#), tracks the U.S. state, territory, or possession for which foreign-made goods are ultimately destined, regardless of where they enter the United States. These data are an indicator of market size for foreign producers from a given country or in a particular industry sector.

The **state of Florida** facilitates international trade in numerous ways, notably by supporting critical infrastructure, with nearly half a billion dollars in seaport and aviation investments in Fiscal Year 2024-2025. Such investments protect the state’s supply chains and maintain vital state competitiveness. As Florida’s international trade and investment promotion agency, **SelectFlorida** promotes exports in [target industries](#), including aviation & aerospace, life sciences, and manufacturing. SelectFlorida assists Florida companies interested in exporting by providing them exposure to foreign markets through international trade shows or export sales missions and other services, contributing to job creation, industry diversification, and economic growth measured in these statistics.

In 2024, **Florida-origin exports** were valued at nearly **\$72.2 billion**, an increase of 4.7 percent over 2023. Since 2019, the state’s exports have grown by 28.9 percent. Overall, Florida ranks sixth among exporting states, with annual growth surpassing not only the U.S. but each of the top five states. Brazil, Canada, and Mexico are leading export markets for Florida-origin goods as nearly 60 percent of Florida-origin exports are destined for countries in the western hemisphere. The leading commodities by dollar value of Florida-origin exports were aviation parts, phones, medicaments, computers, and automobiles.

In 2024, **Florida-destination imports** amounted to nearly **\$117.2 billion**, a growth of 4.2 percent over the year and 43.4 percent since 2019. Florida ranks tenth among importing states. Among the top sources for Florida-destination imports were Mexico, Germany, and Canada. Nearly 40 percent of Florida-destination imports are sourced from nations in the western hemisphere, with Asia accounting for more than 30 percent and Europe with 27 percent. The leading commodities by dollar value of Florida-destination imports were automobiles, aviation parts, phones, organic compounds, and seafood.

Florida’s origin/destination trade is particularly important when considering trade with **USMCA nations** (Mexico and Canada), since most of that exchange is cross-border trade, with goods transported by truck or rail accounted for in these data series. These data are also useful for **state comparisons**. However, Florida-origin exports and Florida-destination imports *cannot be added* in the same way that merchandise trade can be totaled, since Florida-origin exports and Florida-destination imports are two distinct data series with different data sourcing methodologies.

U.S. Exports by State of Origin, 2022-2024

Rank	U.S. State / Territory	Millions of US Dollars			% Change	% Change

Notes: The State of Destination data series (Florida-Destination Imports) tracks the U.S. state, territory, or possession for which the foreign-made goods are ultimately destined, regardless of where they enter into the United States. These data are an indicator of market size for foreign producers from a given country or in a particular industry sector. All figures are in U.S. dollars, not adjusted for inflation.
