

WITH SELECTFLORIDA'S HELP FLORIDA BUSINESSES CAN REACH THE WORLD

SelectFlorida assists businesses big and small with developing new international markets and exporting their products and services around the globe.

Strong Services Exports

Ranked as the 6th largest export state in the U.S., Florida has a natural advantage in exporting knowledge-intensive services, with its extensive global ties, linguistically diverse population and service-intensive economy. High value-added services such as accounting, communications, consulting, engineering, financial, legal, medical and many others are in great demand.

Robust Trade Infrastructure

Florida's vast international commerce infrastructure includes readily available trade financing, international legal and insurance services, freight forwarding and logistics, distribution and warehousing and related services. The state's international business community enjoys access to the second largest Foreign Trade Zone (FTZ) network in the country, where value can be added to foreign goods tariff-free before shipping them on to another country.

Exporting Assistance

Our trade offices around the state assist Florida businesses with developing new international markets and exporting their products and services around the globe. Free export counseling is available for Florida manufacturers, export intermediaries and service providers.

SELECTFLORIDA HAS TRADE OFFICES AROUND THE WORLD

SelectFlorida maintains a network of representative offices outside the United States. The main purpose of these offices is to assist companies from other countries interested in investing in Florida, as well as provide help to Florida businesses big and small looking to export to foreign markets.
