### NOTES:

- The **Merchandise Trade data series** measures the value of goods entering or exiting the United States through Florida's seaports and airports.
- The **State Origin of Movement data series (Florida-Origin Exports)** measures the value of merchandise exports grown, mined, manufactured, assembled, or otherwise having value added in Florida (i.e. goods "Made in Florida"), regardless of where the goods exited the United States.
- The **State of Destination data series (Florida-Destination Imports)** tracks the U.S. state, territory, or possession for which the foreign-made goods are ultimately destined, regardless of where they enter into the United States. These data are an indicator of market size for foreign producers from a given country or in a particular industry sector.
